

Accessory

HF-ceiling adapter

EAN 4007841006600

Functional description

The adapter provides a easy way of installing high-frequency presence detectors HF 360 and DUAL HF on suspended ceilings. Presence detectors identify movement through the ceiling material, e.g. through mineral wool panels, plasterboard or wood, automatically switching light ON and then OFF again.

Technical specifications

Type of accessory	Surface-mounting enclosure presence detector
Material	Plastic
