BE-TA5508.02	Push-button 8 gang, white matt
BE-TA5508.G2	Push-button 8 gang, white glossy finish

The MDT KNX Push-button 55 is a KNX push-button with horizontally arranged pairs of buttons, suitable for 55 mm switch ranges from various manufacturers. The buttons are labelled via the central labelling field. The buttons can be configured as single buttons or in pairs. In addition to switching, dimming, shutters or sending values, there are numerous functions to choose from. The transmission of a second object is possible via the logic modules. With the innovative group control, standard functions can be extended with an extra long button press. For example, the blind function, with the normal short/long button press a single blind is operated, with the additional extra long button press, for example, all blinds in a room (group) are operated centrally.

The central labelling field with cover foil allows individual labelling of the push-button.

The labelling template can be found on our website in the download area.

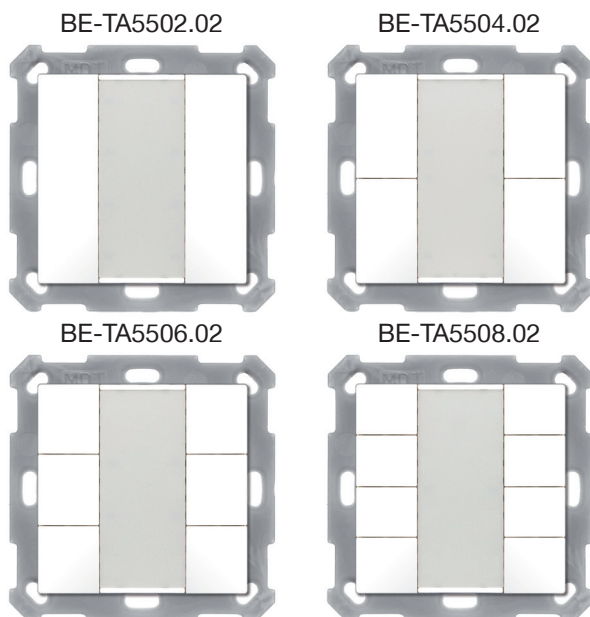

If the push-button is not labelled, the light grey cover foil supplied must be used.

Suitable for 55 mm switch ranges e.g.:

- MDT Glass cover frame, 1-fold, 2-fold, 3-fold
- GIRA Standard 55, E2, Event, Esprit
- BERKER S1, B3, B7
- JUNG A500, Aplus, Acreation, AS500
- MERTEN 1M, M-Smart, M-Plan, M-Pure

The MDT KNX Push-button 55 is intended for installation in switch boxes. The installation must be carried out in dry interior rooms. You need the ETS to commission and configure the MDT push-button.

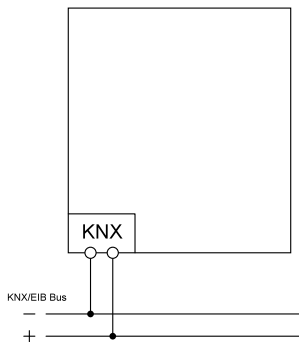

You will find the product database on our website at www.mdt.de/Downloads.html.

- Production in Germany, certified according to ISO 9001
- Suitable for 55 mm switch ranges e.g.:
 - MDT Glass cover frame, 1-fold, 2-fold, 3-fold
 - GIRA Standard 55, E2, Event, Esprit
 - BERKER S1, B3, B7
 - JUNG A 500, A PLUS, A CREATION, AS 500, A550, A FLOW
 - MERTEN 1M, M-Smart, M-Plan, M-Pure
- Central labelling field with cover foil for individual labelling
- The buttons can be freely set as a button pair or individual buttons
- One- and two-button operation for switching, dimming, shutter and values
- Innovative group control with long/extra long keystroke
- Switch values/scenes with up to 4 values
- Short/long push-button action with 2 objects
- Installation in switch box with supplied support ring
- Integrated bus coupling unit
- 3 years product warranty
